Sandy,

On 1/20/16 I replaced the dusk to dawn light bulbs at the park area, the area that we just had clean up and the lights didnt work so I had Matt Bettine come out to look it over. Matt told me that the junction box was out of code (see attached pic). The board voted to get the lights fixed asap. Matt is going to give us a quote at that time to bring the breaker box up to code, I will share that with you as soon as I get it. I did put a lock on it since it is a huge liability being open with no cover and on POA property. If y'all need a key give me a shout.

Danny
